NEW DELHI 2 (INDIA)

The 30th April, 1951.

S. T. JAHN

for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT.

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 7th April, 1951.

Explanation of symbols used :— B.—Births ; B.R.—Birth Rate ; C.—Cholera ; S.—Smallpox ; P.—Plague ; F.—Fever ; D.D.—Diarrhoea & Dysentery ; R.D.—Respiratory Diseases ; M.D.—Maternal Deaths ; D.R.—Death Rate ; I.D.—Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for the week ending the 7th April 1951, relate to 175 towns with an estimated population of 21,072 thousands. The total number of towns is 234 and their population is 29,017 thousands. Thus 75% of the total number of towns representing 73% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 13,387 and 7,350 representing birth and death rates of 33.0 and 18.1 per thousand of population respectively.

(A) *States (Parts A and C)*.—The data here relate to 153 towns with an estimated population of 18,207 thousands. Information about Assam, Bihar and West Bengal could not be included. The total number of towns is 202 and their population is 25,187 thousands. Thus 76% of the total number of towns representing 72% of the total population is covered. The numbers of births and deaths recorded in these towns were 11,892 and 6,538 representing

birth and death rates of 34.0 and 18.7 per thousand of population respectively. The table at the end gives the position of States.

Ellichpur in Madhya Pradesh was the only town which had a high death rate of 74.9 per thousand of population and this high death rate was mainly due to deaths from fevers.

(B) *States (Part B)*.—The data here relate to 22 towns with an estimated population of 2,865 thousands. The total number of towns is 32 and their population is 3,830 thousands. Thus 69% of the total number of towns representing 75% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,495 and 812 representing birth and death rates of 27.1 and 14.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
